PROFESSIONAL EXPERIENCE

Deloitte Consulting Pvt. Ltd. Hyderabad, India
Lead Junior Associate — Data Operations & Process Analytics Jan 2025 – Present

- Directed a 28-day billing data audit and transformation project, resolving mapping anomalies for a major US healthcare client to recover **\$567K** and reduce backlog inventory by 90% (1,760+ accounts resolved).
- Applied structured validation protocols and audited payer datasets to identify taxonomy issues, standardizing data categorization formats.
- Prepared weekly executive dashboards and variance analysis reports in Tableau and Excel detailing data mapping quality metrics, SLA compliance, and capacity constraints.
- Built automated data cleansing, validation, and mapping workflows in Alteryx Designer for pilot business segments processing daily transaction records, saving 3+ hours per week.

MediaMint Hyderabad, India
Campaign Manager — Analytics & Performance Reporting Jul 2024 – Dec 2024

- Audited and categorized multi-channel digital performance datasets (GA4, GTM) to track conversions, mapping metrics across category trees to optimize customer reporting trees.
- Standardized data extraction templates and analytic review decks, reducing taxonomy-related reporting escalations by 15%.

MediaMint Hyderabad, India
Customer Operations Specialist — Reporting & CRM Support Apr 2023 – Jul 2024

- Developed automated spreadsheet-based mapping and tracking models to monitor 250–330 monthly customer cases across Salesforce and Zendesk databases with absolute attention to detail.
- Cleansed daily CRM databases to resolve categorization errors, standardize customer tags, and documented data mapping SOPs to streamline taxonomy queues.

Freelance Consulting & Graphic Design Remote
Freelance Designer & Operations Analyst 2024

- Collaborated with US restaurant franchises to map, structure, and categorize product catalogs, aligning menu items with database category trees to optimize ordering analytics.

KEY PROJECTS (ANALYTICS PORTFOLIO)

Customer Revenue & Cohort Retention Analysis (SQL/DuckDB) SQL, DuckDB, Cohort Retention, RFM Modeling
Analyzed 929 completed transactions (INR 5.37M revenue) in DuckDB. Used window functions and CTEs to evaluate monthly revenue, compute order return rates (4.5%), build cohort retention matrices, and segment customer bases using Recency, Frequency, and Monetary (RFM) modeling to optimize customer retention spend.

Operations Root Cause Analysis & SLA Audit (Python/Pandas) Python, Pandas, Root Cause Analysis, KPI Dashboards
Evaluated 1,000 service tickets in Python. Isolated operational bottlenecks in "Delivery Issues" (40.7% breach rate, 71.3-hour resolution average), and quantified that SLA breaches led to a CSAT drop from 3.98 to 1.44, supporting a proposed milestone-based escalation framework to leadership.
